YieldWerx & PTC Collaboration Meeting

- **YieldWerx & PTC Collaboration Opportunities**
  - Discussions focused on leveraging YieldWerx's E2E product lifecycle analytics for semiconductor backend processes, identifying data collection gaps, and positioning YieldWerx as a competitive alternative to existing solutions like PDF and O+.

- **Key Action Items & Next Steps**
  - Assigning project managers, collecting post-CP process data, co-developing Back End reports, connecting with an MES solution provider in India, and scheduling follow-up meetings to drive implementation.

- **Strategic Roadmap & Market Expansion**
  - Exploring joint go-to-market strategies for Malaysia and India, evaluating CAPEX and funding opportunities, planning industry engagements (seminars, press releases), and aligning with broader OSAT development initiatives.
